

Chip Arenchild, ARM, AAI

Vice President

Chip Arenchild graduated from the University of California, Santa Barbara in 1989 with a Degree in Ecology and spent the next five years working in the corporate world as a Project Manager for Southern Pacific Railroad and the Laidlaw Corporation.

In 1994 he joined a natural resource firm involved in logging, mining and petroleum distribution. Chip served as their Safety Director, assisted with the petroleum division and help create an environmental construction division.

Chip joined InterWest Insurance Services, Inc. in 2000. He recognized the need for technical expertise and has completed training programs through The Hartford, and has received his AAI and ARM designations. Commitment, hard work, and integrity are the cornerstones of his business practices. In 2003 Chip became a principal and officer of InterWest Insurance Services, Inc.

His success in the insurance business has been built upon his understanding of real life business issues, a comprehensive risk management approach, commitment to the continual improvement of his insurance knowledge, and work ethic.

His goal is to provide professional risk management services to clients with mutual admiration, respect and decency throughout the Western United States.
