

American Cancer Society

# Relay For Life

A Team Event to Fight Cancer

Employees from the Merced InterWest office recently participated in The Relay for Life, raising money and awareness for the American Cancer Society. Our team walked for 24 hours straight (in shifts, of course!), and really enjoyed a beautiful

day together. It was a wonderful experience and gave us all a chance to remember and be thankful for the people in our lives who have been affected by this disease.

Not only did our office participate, we were award winners! Out of 58 participating teams, InterWest-Merced was awarded the 2<sup>nd</sup> place trophy for our booth and participation!!! Next year we're going for #1!

We especially want to thank our co-captains who worked so hard to make the rest of us look good - Dottie Lutz and Joy Albert. Joy and Dottie spent many months planning, attended countless meetings, built the InterWest race car to participate in the soapbox races, staffed the booth all day and slept in a tent that night to make sure one of us was on the track at all times! They did a fantastic job and deserve our congratulations and heartfelt thanks!!!!
